

Flask Mini Web App - Notes Application

Objective

To develop a Flask-based web application for creating, viewing, editing, and deleting personal notes using Python, HTML templates, and Bootstrap UI.

Requirements Covered

Flask routing
Jinja2 templates
Bootstrap 5 user interface
CRUD Operations (Create, Read, Update, Delete)
Source code on GitHub
Screenshots of output

Software Requirements

Python 3.x
Flask library
HTML5
Bootstrap 5
Web Browser (Chrome/Edge/Firefox)
Visual Studio Code

Project Description

The Flask Notes Application is a simple web-based tool that allows users to add, view, edit, and delete personal notes.

Installation Steps

1. Install Flask using: `python -m pip install Flask`
2. Run the application using: `python app.py`
3. Open `http://127.0.0.1:5000/` in your browser.

Source Code

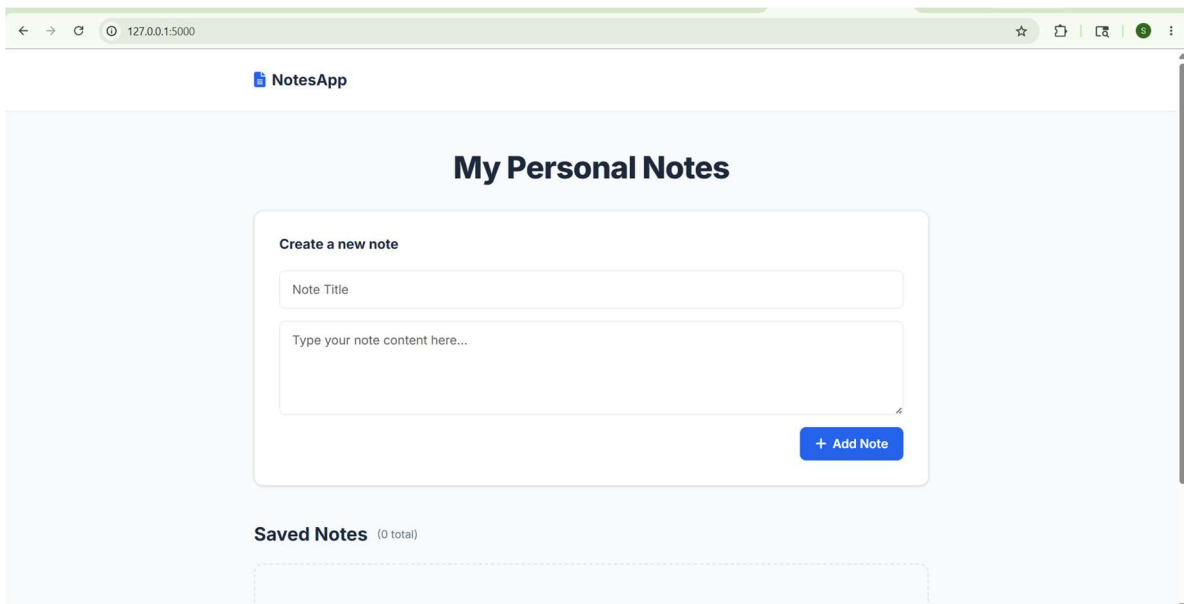

Sample Input

Note Title: task4

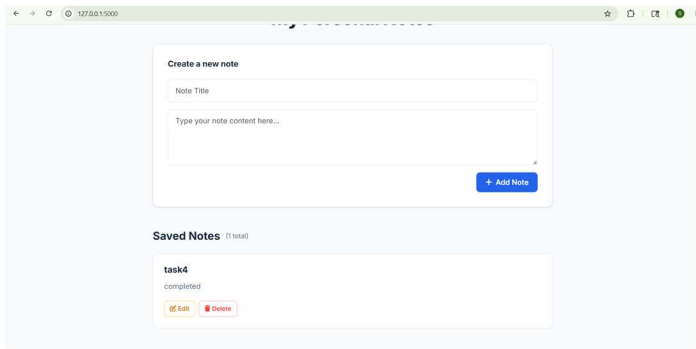

Note Content: completed
